

Psychiatrist

Join our team of highly experienced professionals as we continue with exciting growth and development in the Mental Health and Addictions (Pinewood Centre) Program. With the recent opening of our Mental Health Emergency Services Unit, and integration of Ajax-Pickering Hospital, which will bring an additional 20 mental health beds, we are well positioned for further investments. In addition to core mental health programs, we offer tremendous opportunities across community clinics in early psychosis intervention, eating disorders, addictions and children's mental health. You will work closely with our team in planning future growth and offering evidence-based practices, for both inpatient and outpatient programs. Lakeridge has well-established academic partnerships and a dedication to supporting clinical research projects.

You must be licensed to practise in Ontario, and have a fellowship in Psychiatry from the Royal College of Physicians and Surgeons of Canada. Lakeridge Health is approved for a clerkship in Psychiatry with Queen's Family Medicine Program.

LEARNING. LEADERSHIP. LIFESTYLE. It's all right here.
