

**Department of Mental Health
Workers Injury Network, Mental Health Specialty Clinic (WSIB)
St Joseph's Healthcare, Hamilton**

Corporate Profile

As a premier academic and research healthcare organization, St. Joseph's Healthcare Hamilton (SJHH) is committed to making a difference in people's lives and creating a lasting future for our community through integrated health services and internationally recognized programs. Our threefold mission is to provide dynamic research, revolutionary methods in health sciences education, and the highest standard of clinical care in a spirit of compassion, innovation and commitment.

SJHH is a member of the St. Joseph's Health System (SJHS), and is affiliated with McMaster University, Mohawk College.

SJHH has earned a national reputation for outstanding patient care and innovative medical and surgical treatments. The Hospital is particularly well known for excellence in respiratory care, kidney and urinary care, mental health and addictions, surgical services, cancer surgery and women's and infants' care.

St Joseph's Healthcare, Hamilton is seeking interested psychiatrists to work at the Workers Injury Network, Mental Health Specialty Clinic (WSIB) at the West 5th site. The Mental Health Specialty Clinic is an outpatient program focused upon the intersection between trauma, mood and personality related mental health problems and returning to work. The clinic is dedicated to providing clinical service, education, and research. Individuals who have not responded to treatment in the community are referred to this clinic for multidisciplinary care, including assessment and treatment.

At this time, we are seeking interested psychiatrists who could provide part time and/or temporary support to this service, as well as psychiatrists who are able to commit to four days per week of clinical time. In this position you will:

- Conduct approximately 10 psychiatric assessments per week to determine the impact of psychiatric condition on function and provide recommendations with a particular emphasis on reducing barriers related to return-to-work.
- Be responsible for managing an active case load of approximately 20 patients.
- Work as a member of a multidisciplinary team which includes psychologists, psychotherapists and occupational therapists.
- Participate in weekly interdisciplinary meetings and case conferences when required.

The successful candidate will hold a valid Ontario CPSO license and be a trained psychiatrist with FRCPC or equivalent. There will be an expectation that the physician will be eligible for a Faculty position with the Department of Psychiatry and Behavioural Neurosciences, McMaster University, and that they will have an interest and aptitude for teaching and/or clinical research.

If you are interested in this opportunity, please contact the Manager of the clinic, Ms. Susannah O'Grady at sograd@stjosham.on.ca or the Chief of Mental Health and Addictions, Dr. Maxine Lewis at lewism@stjosham.on.ca.
